### Profile

I'm an Information Technology Specialist with a passion for building clean, responsive, and accessible information technology and web applications. My skills include React, Tailwind CSS, and CMS platforms e.g. Strapi. I bridge the gap between UI/UX design and technical implementation. I also have hands-on experience in digital marketing and IT support. In my past roles, I've collaborated with cross functional teams, integrated payment APIs, and deployed scalable solutions.

### Skills

**Frontend:** React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind, Bootstrap

**UI/UX:** Figma, Responsive Design, Accessibility, Mobile-first Design

**CMS & Backend:** Strapi, PostgreSQL, Python, Java, Express.js, Django, Spring framework, Amazon s3

**Technical Skills:** IT application support, System integrations, Databases

**Tools:** Git, GitHub, Render, SEO, REST APIs, CI/CD Pipelines

**Project Management:** Agile, Jira, Trello, Google PM Certified

### Experience

#### Digital Marketer & IT Specialist

*Globe Flight Kenya – Apr 2024 – Dec 2024*

- Led digital marketing and social strategy that boosted brand visibility by 20%.
- Trained newly onboarded staff for Savabuy app thus improving overall operational efficiency.
- API Integration (Lipa na Mpesa) which improved payment systems by 70% thus enhancing user retention and product acquisition.

- Provided backend support, analytics tracking, and performance optimization.

### **Web Developer & Content Manager**

*ISkyz Solutions – Jan 2018 – Apr 2024*

- Built and offered support for an SEO-optimized pet care website while managing affiliate links thus improving traffic by 10% within the first year.
- Developed user-friendly UI designs and offered client support after launch thus increasing the adoption rate by 70%.
- Improved the conversion rate through Google Ads with engaging landing pages by 60%.

### **IT Support Analyst Intern**

*Standard Media Group PLC – Feb 2022 – Mar 2024*

- Resolved technical support issues across departments.
- Managed Active Directory accounts thus streamlining service desk operations by 20% within the first 3 months.
- Handled company resources and allocated them to new staff and collected the resources for leaving staff.
- Provided customer care services to staff members situated in different regions/counties improving employee satisfaction by 30% within 3 months.

## **Projects**

### **Weight Cheque – E-Commerce & Blog Platform**

A health-based platform for purchasing downloadable diet plans and reading blog content.

- The tech stack for this project is React + Tailwind, Strapi CMS, and Paystack/Pesapal for payments
- Designed a fully responsive UI with strong focus on SEO
- Hosted on Render with automated CI/CD pipeline

### **Savabuy App – Internal Marketplace (Globe Flight)**

- Integrated Lipa na M-Pesa API for payments
- Maintained backend logic and staff performance dashboards
- Trained and supported internal teams to improve the adoption rate

### **Mangata & Galo – Jewelry Store Website**

- Static HTML/CSS site for a fictional jewelry brand
- Focused on appealing UI/UX and an elegant layout for a fashion-oriented marketplace

### **Pet Care Blog & Affiliate Site**

- Educational platform with pet tips and affiliate product links
- SEO-optimized blog structure with an accessible design
